READ ENTIRE LABEL BEFORE USING

PRODUCT INFORMATION

ACE Zn-8 is a superior formulation of zinc designed to rapidly cure and/or prevent zinc deficiencies in crops, ornamentals and turf. ACE Zn-8’s acetate-based technology provides an extremely efficient, available and safe nutrient delivery system. ACE Zn-8 has a low salt index which reduces the potential of a foliage burn. The addition of 1 to 2 quarts of POWER PAK S-0-20 or our SRN 30-0-0 or SRN 28-0-0 per 100 gallons of water aids in leaf absorption and translocation.

**Caution: A jar test is recommended to test compatibility when new or unfamiliar tank mix combinations are used. When used as directed this product does not supply all the nutrients required by plants and is designed to supplement a soil fertility plan.**

DIRECTIONS FOR USE

Aerial/Concentrate Applications: Apply recommended rate in adequate water to ensure proper mixing and coverage. The addition of a non-ionic surfactant will improve coverage.

Soil Applications: Apply 2 to 8 pints per acre. Maximum use rate of 4 gallons per acre in a crop season.

APPLICATIONS

CITRUS: Apply 1 to 4 pints per acre. Repeat applications as needed every 4 weeks.

CORN: Apply 1 to 4 pints when stalks are between 10” and 20” and repeat in 2 to 4 weeks.

COLE CROPS, FRUITING & LEAFY VEGETABLES: Apply 1 to 4 pints per acre 2 days after transplant and repeat every 14 days as necessary.

FRUIT, NUT & VINE CROPS: Apply 1 to 4 pints per acre beginning pre bloom and repeat as needed every 14 days.

LEGUMES: Apply 1 to 3 pints per acre at early bud and repeat after bloom.

ORNAMENTAL, NURSERY, AND GREENHOUSE: Apply 1 to 4 pints per 100 gallons of water every 30 days as needed.

POSSIBLE USES:

- POTATO & TUBER CROPS: Apply 1 to 4 pints beginning at tuber initiation and repeat as necessary every 2 weeks.
- SMALL FRUITS & BERRIES: Apply 1 to 3 pints per acre beginning pre-bloom and repeat every 2 to 4 weeks.
- WARM AND COOL SEASON TURFGRASS & SOD: Apply 1 to 1.5 ounces per 1000 sq. feet as needed for maintenance. Or 1 to 4 pints per acre. Applications can be made every 7 to 15 days as needed for desired results. In Florida, follow the “BMP’s for the Enhancement of Environmental Quality on Golf Courses” found at: http://www.dep.state.fl.us/water/nonpoint/pubs.htm.

PRECAUTIONARY STATEMENT

Avoid prolonged or repeated contact with eyes, skin, and clothing. Chemical goggles or a full face shield should be worn. To protect skin wear appropriate protective equipment, such as rubber or plastic aprons, rubber gloves, and boots. GET MEDICAL ATTENTION IF IRRITATION PERSISTS. May cause gastrointestinal distress if swallowed. Keep containers closed. Wash thoroughly after handling.

STORAGE AND DISPOSAL

STORAGE: Store at ambient temperatures in dry secure area. Keep container tightly closed. Do not allow water to be introduced into the container contents. DISPOSAL: Dispose of empty containers by triple rinsing or equivalent and discard empty containers in accordance with current Local, State and Federal regulations. Do not contaminate water, food or feed sources by cleaning of equipment or disposal of waste or rinseate.

WARRANTY

SELLER WARRANTS THAT THE PRODUCT CONFORMS TO ITS CHEMICAL DESCRIPTION AND IS REASONABLY FIT FOR THE PURPOSE STATED ON THE LABEL WHEN USED IN ACCORDANCE WITH DIRECTION UNDER NORMAL CONDITIONS OF USE. NEITHER THIS WARRANTY NOR ANY OTHER WARRANTY OF MERCHANTABILITY OR OF A PARTICULAR PRODUCT EXPRESSED OR IMPLIED, EXTENDS TO THE USE OF THIS PRODUCT CONTRARY TO LABEL CONDITIONS, OR UNDER CONDITIONS NOT REASONABLY FORESEEABLE TO THE SELLER; AND BUYER ASSUMES THE RISK OF ANY SUCH USE.
